Challenge is proud to announce the arrival of the newest member to our product line of padding presses, the NEW MiniPadder!

This innovative and low cost table top padder offers a convenient, portable, and simple to use padding solution for those low volume padding needs. Weighing only 15 pounds, the Mini Padder can be easily stored in a cabinet when not in use. With an overall dimension of approximately 12" long x 19" wide x 9" high, this device can be shipped easily via most small package carriers such as UPS or FedEx.

Proudly manufactured in the USA, the Challenge MiniPadder continues to provide print providers ... *assurance you made the right decision.*
