Convenient and Efficient Storage and Transport for a Wide Variety of Products

- Large Diameter Casters for easy rolling over any floor
- Angled Shelves Keep Product in Place During Transport
- Sturdy Construction Supports up to 800 lbs
- Available in a Wide Variety of Shelf Configurations

Performance & Finishing Features

Designed for runs of hundreds and thousands... built for thousands of runs.

Rosback Utility Stock Trucks are built to perform with convenient features and sturdy construction. Also known as Bindery Carts, these stock trucks are essential equipment in binderies, print shops, schools, and mail rooms. Parts departments and stock rooms in many industries will also benefit whenever product must be moved, stored, or organized.

Large 5" heavy duty, ball bearing casters move easily over rough surfaces, even when fully loaded with up to 800 lbs of product. Foot brakes on two casters will hold trucks securely in place on any floor.

The Model 126 has a 26" x 26" shelf size, while the similar Model 139 has wider shelves at 26" x 39". The Model 140 has a center divider with 12" x 26" shelves either side. The Model 160 features sets of four 13" x 17" shelves arrayed around a square base.

All Rosback Utility Stock Trucks feature shelves that angle slightly to keep product stable during transport. Models 126 and 139 shelves lift up and lock out of the way for easier loading, or when moving larger products. All models are designed to accommodate additional shelves in a variety of configurations. Rosback can also design custom shelving to suit any unusual applications.

Rosback utility stock trucks are shipped in kit form to reduce shipping costs. Pre fabricated sections can be easily assembled with just a wrench and screwdriver

Model 126 comes standard with two shelves. Add another pair for a maximum of four shelves

Model 139 comes standard with two shelves. Add another pair for a maximum of four shelves

Model 140 comes standard with four shelves. Add another pair for six or two pair for a maximum of eight shelves

Model 160 comes standard with four base shelves. Add sets of four shelves up to a maximum of sixteen shelves.

Foot brakes on two casters lock the truck in position quickly and easily.

Shelves tilt up and lock out of the way on models 126 and 139, freeing up space on the shelf below.
